

PRACTICAL-2

AIM:- Write the HTML code to design an alumni web page for an educational institute. Registered alumni must be displayed in a table (may include columns for Name, Branch, Passing Year, Current Organization and Designation, etc.). Also design an Alumni Registration Form using various form input elements like text fields, password, radio buttons, drop down lists, etc.

CODE FOR TABLE:-

```
File Edit Selection View Go Run Terminal Help
c:\46 > prc2.c46.html > html > body > h2
1 <html>
2 <head></head>
